Trying to open an.aep, I get the following message (which I can't attach): "The previous version of this application was unable to open the file '~name\Desktop\1.aep'. Seems like it's trying to look for an older "aliasfile.aep". I tried to manually replace it as well but still nothing. I've been through a number of the posts with no help. I've also tried restarting my computer, reinstalling, etc. I'm using Windows 10. Will appreciate any help.
