passengers. Many people are on the move. They are rushing home, paying and working in the countryside, heading to school or to school, and touring to the countryside. There are everywhere. They are flocking to the big city or buying plane tickets to the big city. The big city has become very crowded. It is also my favorite place to visit. There are always so many new things to look at and see. I'm like a kid in a candy shop. Although I am not a kid, I have always wished to be a kid in a candy shop. There is the real life for me. I can't live in the big city for the rest of my life. But, as a traveler, I will certainly make a trip to the big city from time to time. Like a little kid, I will always carry an endless supply of sweets with me. This is a place I can spend my time without any real obligation. It's a place that allows me to explore and learn new things without being bothered by the daily nonsense in my life. I don't do anything. I don't really need to. There is nothing that cannot be learned or experienced. If it is a joke, I don't need to get angry. I don't need to think about my boss. I don't have to think about the people I am travelling with. I don't need to think about the customers waiting for me. I can take some time to refresh my mind. I can sleep away from time to time. I can look up at the sky and just breathe in the clean air. I

A remote controller (Wii U GamePad, Nintendo Wii U GamePad) is used to operate the system and display the screen. It also serves as a platform for downloadable content. The core of the system is an internal component called the Wii
